SSS Speedster 600

Weighing only 9 lbs, the Speedster 600 delivers speed, efficiency and comfort and offers excellent dust and soil removal in any commercial application. The versatile design allows you to use it as a canister, too.

SSS Speedster 1000

For power, strength and rugged durability. It's the most powerful and highest-capacity backpack vacuum available from Triple S. When faced with the toughest commercial cleaning challenges, step up with the quality of the SSS Speedster 1000.

Four Stage Filtration

For a clean, happy, healthy work environment frequent vacuuming with proper filtration will reduce allergens and harmful particles from re-entering the air. The combination of Triple S Micro Filters and micro cloth filters is up to 99.79% efficient in filtering these particles down to 1 micron.

Stage 1 - reusable 2-ply micro filter

Stage 2 - micro cloth filter

Stage 3 - high efficiency dome filter media

Stage 4 - sound exhaust filter reduces exhaust and sound levels

HD Attachment Kit

56" two-piece, double-bend aluminum wand with button lock, 17" crevice tool, 3" dust brush, 5" upholstery tool and 14" E-Z Glide® floor tool with brush
